

proud history ... great future

Room 8 Update

To Parents and Carers,

Welcome to Semester 2! In Room 8 we have lots of exciting things coming up, including the following:

Literacy Block

Our new literacy block classes are in full swing. Please aim to arrive at school by 8:30am for students to have time to transition to their literacy classes.

Numeracy

This term in Mathematics, Room 8 will be covering concepts such as money and time. It would be great for the students to practise these skills at home in everyday life. For example, asking what time it is or how much change they will receive at the shops.

Design & Technology

The students of Room 8 have been given a design brief to complete a Marble Run Challenge. They are to work with a partner to create two marble runs. We are looking at design and friction to change the speed of which the marbles travel down the marble run. A success criterion of their design is to be constructed out of recyclable material. If you have any materials at home from your recycling bin that students could bring in, it would be greatly appreciated.

Assembly

Our class will be presenting their assembly item in Week 4 on Friday 13th of August at 2:05pm. For this, I ask your child to bring in a black t-shirt in their school bag that they will get changed into at lunch time to wear with their black school pants. We welcome you to join our class for a picnic lunch in the Cultural Garden at 1:05pm. The students will then return to the class at 1:35pm to prepare for the assembly. We look forward to seeing you there!

If you have any questions or queries, please do not hesitate to ask. My classroom is always open to have a chat before or after school. Thank you.

Kind regards,

Miss Callow
Room 8 Teacher
